DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - I. The species of First embodiment (figures 3-5, pages 15-31).
 - II. The species of Second embodiment (figures 10-11, pages 31-36).
 - III. The species of Third embodiment (figures 12, 14-16, pages 36-43).
 - IV. The species of Fourth embodiment (figures 18, 22, 24, pages 43-54).
 - V. The species of Fifth embodiment (figure 25, pages 54-57).
 - VI. The species of Sixth embodiment (figures 26-27, pages 57-61).
 - VII. The species of Seventh embodiment (figures 28 and 3-31, pages 61-69).
 - VIII. The species of Eighth embodiment (figures 21 and 34, pages 69-74).
 - IX. The species of Ninth embodiment (figure 37, pages 74-75).
 - X. The species of Tenth embodiment (figure 38, pages 75-76).
 - XI. The species of Eleventh embodiment (figure 39, pages 76-81).
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic claim.
3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims and any drawings readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Conclusion

Since an election to the restriction is required, a SHORTENED STATUTORY PERIOD for response to this action is set to expire ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this communication. Failure to respond within the period for response will cause the application to become abandoned.
